

*Penjelasan:

1. Sumber data saham scripless (dalam bentuk warrant) berasal dari Sub Rekening Efek (SRE) pada C-BEST. Adapun sumber data saham scrip (dalam bentuk warrant) berasal dari rekening warrant pada sistem eBAE.
2. Pada C-BEST, terdapat SRE yang telah terhubung Single Investor Identification (SID) maupun dari SRE yang belum terhubung SID.
3. Pada sistem eBAE, data berasal dari pelaporan oleh Biro Administrasi Efek (BAE) atau Penerbit Efek yang menyelenggarakan administrasi Efek (BAE inhouse) ke sistem eBAE. Pada sistem eBAE terdapat rekening warrant bank investor yang telah memiliki SID dan rekening warrant khusus bagi investor yang belum memiliki SID.
4. Perhitungan kepemilikan dilakukan berdasarkan rekening SID atau rekening khusus bagi investor yang belum memiliki SID.
5. Dalam hal terdapat data investor yang belum terdapat klasifikasi Lokal atau Asing, hal tersebut dikarenakan kepemilikan saham scrip tersebut masih dicatatkan pada rekening warrant khusus, dimana belum terdapat informasi mengenai detail Lokal atau Asing.
6. Perhitungan persentase atas saham dengan Hak Suara Maksimal diperlihatkan dari jumlah kepemilikan sahamnya, bukan persentase hak suara.
7. Keberanan data kepemilikan saham scripless adalah data kepemilikan yang terdapat pada Lembaga Penyimpanan dan Penyelesaian (LPP). Keberanan data kepemilikan saham scrip adalah data kepemilikan yang terdapat pada Biro Administrasi Efek (BAE).
8. Dalam hal terdapat pembaruan data atau laporan sebelumnya, maka akan dilakukan penyelesaian pada laporan periode tersebut.

*Disclaimer:

1. Sources of scripless share data (shares in uncertificated form) originate from Securities Sub-Accounts (SRE) within the C-BEST System. Meanwhile, sources of scrip share data (shares in certificated form or scrips) originate from scrip accounts within the eBAE System.
2. Within C-BEST, there are SREs that are already linked to a Single Investor Identification (SID) as well as SREs that are not yet linked to an SID.
3. Within the eBAE System, data is sourced from reports submitted by Registrars (BAE) or issuers managing their own securities (In-house Registrars). The system also maintains scrip accounts for investors who hold an SID, as well as special scrip accounts for investors who do not yet hold an SID.*
4. Ownership calculations are performed based on SID or based on Account numbers for investors who do not yet hold an SID.
5. If the investor data does not have a Local or Foreign classification yet, it is because the ownership of the scrip shares is still recorded under a special scrip account, in which information on Local or Foreign details is not yet available.
6. The percentage calculation for shares with Multiple Voting Rights is based on the number of shares held, not on the voting rights percentage.
7. The accuracy of scripless shareholding data is based on ownership data within the Securities Depository and Settlement Institution (LPP). Meanwhile, the accuracy of scrip shareholding data is based on ownership data within the Registrar (BAE).
8. In case of data updates for prior reports, adjustments will be applied to the reports of the relevant period.
